AN EGGCCELLENT TIME WAS HAD BY ALL!

The City's 27th annual Easter Egg Hunt was a huge success.

We had over 15,000 eggs filled

with candy and prize

tickets for the 2,000 people that attended the event. Families started to arrive as early as 8am, but we were ready with free face painting and balloon animals courtesy of Emilio Inc. The Easter Bunny's helicopter was grounded due to weather, but Multnomah County Animal Services saved the day by picking up the Easter Bunny and dropping him off at the event. Multnomah County Animal Services is great at getting animals to where they need to be. The hunt started at 10am for kids with special needs, followed by separate hunts for children aged 3-4, 5-6, and 7-9. By 11am it was all over. All the eggs were collected, and we gave out over 600 prizes!

This event was made possible because of the support and generosity of over 70 volunteers, and numerous businesses which donated money and supplies. We would like to thank the following businesses and organizations for their support: the Wood Village Walmart, Advanced Metal and Wire, Wood Village 76 Gas Station, Beararino's Coffee, Brasher's Auto Body, Wood Village Green, The Chapel, Super Kids Resale,

The Fraternal Order of the Eagles #4515, and The Multnomah County Sheriff's Office. We also want to give a very special thanks to Emilio Inc. who not only provided the free face painting and balloons animals, but also provided over 50 volunteers to help with the event. This very special group named after Emilio Hoffman conducts monthly service projects all around the community. To find out how you can join or support this great

organization, just check out their Facebook page at:

<https://www.facebook.com/emilioinc>.

This was a great year for the event and we hope to see you next year!

HELP SHAPE THE FUTURE FOR PARKS, TRAILS AND RECREATION OPPORTUNITIES

Open house announced for May 19th, plus community survey

WOOD VILLAGE, OR – The City of Wood Village is developing its first comprehensive Parks Master Plan to establish long-term priorities for parks, trails and maintenance and reflect current community interests. The City's first Parks Master Plan will guide its efforts for providing high quality, community-driven parks, trails and recreation amenities serving the entire city.

The involvement of Wood Village residents plays an important role in guiding the plan and direction for how outdoor recreation spaces are acquired, connected and managed to contribute to the community's character.

An open house on May 19th at City Hall at the 2055 NE 238th Drive, will launch the public conversation on the parks plan. Please drop in between the hours of 6:00 – 8:00 p.m. to share your ideas and visions for the future of Wood Village's park and recreation opportunities.

Community input is crucial to develop this plan!

Please take part in a survey that will help define the future direction of the Wood Village park system. The survey focuses on your current use of park facilities and will help identify community preferences and needs for recreational activities. Take the online survey today! Go to <http://www.ci.wood-village.or.us/parks-recreation>.

The City is excited to provide an online platform for residents to offer their ideas and questions to the project team and receive announcements and updates. The site is called mySidewalk, and it works a little like Facebook and LinkedIn. Login to join the community conversation at <http://www.ci.wood-village.or.us/parks-recreation>.

The mySidewalk project site is intended to allow for a seamless integration between traditional public meetings and online dialogue. The site allows residents to submit ideas, feedback and respond to questions about key issues or topics. It is designed to enhance community engagement and solicit feedback from residents who may not be able to attend meetings or other planned outreach.

Please visit the Wood Village website for updates on the Plan and more information about opportunities to be involved. Go to <http://www.ci.wood-village.or.us/parks-recreation>.

2014 CONSUMER CONFIDENCE REPORT

As mandated by the federal government, the City of Wood Village is required to produce an Annual Water Quality Report. This report summarizes the drinking water quality results for 2014 and educates our customers about their drinking water.

New federal guidelines allow the City to release the report online instead of mailing the full report. Water providers are required to provide notification of the report's availability to all customers served by the water system. The 2014 Consumer Confidence Report is available online at: <http://www.ci.wood-village.or.us/wp-content/uploads/2009/08/CCR-2014-Report-final.pdf>. Consumer Confidence Reports for the previous two years are also available on the City's website under Public Works.

A paper copy can be requested by calling 503-667-6211 or stopping by City Hall.

YOU'LL FIND IT AT

By now you have probably seen all the construction going on at the Town Center in front of Fred Meyer. The old bottle return building is gone, the drive up area near the central plaza is completely different, and there is a very big hole near Buffalo Wild Wings. All these projects are related to the new Fred Meyer fueling station that is being built.

This project started well over two years ago with Planning Commission and City Council meetings. The Town Center Zone was amended, and construction drawings were submitted and resubmitted, and then approved. The end result is what you see going on today. The old bottle return building was removed, and in its place will be electronic vehicle parking and charging stations. The central plaza area will be enhanced with improved landscaping and pedestrian features and vehicles will no longer be able to pull into that area. It will be a true gathering place for the Town Center.

Finally, the main portion of the project is the 16 pump fueling station. This facility will be located just south of Fred Meyer near Buffalo Wild Wings. The design will be in keeping with the Wood Village feel, and Fred Meyer worked closely with the City to ensure that this new facility will be something we can all be proud of. While there will be some changes to the parking lot and one driveway will be expanded, there will be no changes to Wood Village Blvd. It is estimated

that about 80% of the customers to the fueling station will already be at the Town Center, so the overall traffic impacts will not be too different from what they are today. This project is expected to wrap up fairly quickly, so look for all these improvements this summer.

NEW UTILITY WORKER

Denver Taylor is the newest member of our Public Works Department. He is a Native Oregonian; growing up in the Sherwood-Newberg area. He recently graduated from Linn Benton Community College with an Associates of Applied Science specializing in water, environment, and technology. Denver is very passionate about his career and continually strives to learn new concepts. It has been a pleasure getting to know him and watch his growth and development in the short time he has spent working for the City. We look forward to seeing him continue in that manor for a long time to come.

When Denver is not at work, he enjoys spending time outdoors camping and fishing. Bass and sturgeon fishing are his favorite. He is also an accomplished wood worker, having made several pieces of furniture and a fully functioning wooden lock. Recently, he's taken on a new challenge of growing giant pumpkins!

Denver's enthusiasm has been infectious; he fits in well with the rest of the city staff. Denver is a friendly guy with a great sense of humor. If you get a chance to see him, give him wave or just say "hi" and welcome him to our great community.

NEW FINANCE ACCOUNTANT

Yelena Shapovalov is the newest addition to our finance department. She has over 10 years of professional accounting experience, mostly in the manufacturing and real estate industries. Yelena graduated from Eastern Oregon University with a bachelor's degree in business administration with a concentration in accounting. She is a member of the Institute of Management Accountants and recently obtained her CMA certification.

Yelena was born in Russia and moved to the US when she was just a teenager. She's been an Oregon resident for almost 20 years and enjoys the Pacific Northwest. She enjoys cooking, reading, crocheting and spending time with her family. Her family likes taking road trips and exploring new places. Every year they take a road trip to sunny California and spend time by the lake or the beach enjoying the sun.

Yelena is very excited to join the City of Wood Village and looks forward to working here.

CHARTER AMENDMENT VOTE IN WOOD VILLAGE

Residents of Wood Village will have an opportunity this May to vote on proposed changes to the Wood Village Charter that have been forwarded to voters from the Wood Village City Council. A charter is the basic document that defines the City organization, powers, functions, and all the essential procedures for Wood Village. It is comparable to the Constitution of the United States or of the State of Oregon. The charter is the most important legal document of any city, and may only be changed by a positive vote of the residents of Wood Village.

The City Council referred a series of amendments to the voters. The amendments would change the charter to comply with state law, eliminate conflicts, and streamline operations of the City. The amendments would:

- ✚ Add a provision reserving initiative and referendum to the City voters as required by the Oregon Constitution.
 - This proposed change would alter the language in the City Charter to match the requirements of the Oregon constitution.
- ✚ Clarify that the council adopts legislation by ordinance, administrative rules by resolution, and quasi-judicial decisions (for example permit appeals) by order, consistent with most cities.
 - The current charter does not define how actions should be taken by the City Council in a variety of activities. This clarifies language and directs how actions are taken.
- ✚ Revise language from the 1953 charter to eliminate inferences that the mayor or a councilor cannot attend a meeting electronically.
- ✚ Change the title of the chief executive officer from "city administrator" to "city manager" to reflect the duties of office approved by the city voters in 2002.
- ✚ Eliminate the requirement that an ordinance be read twice by title prior to enactment as long as the proposed ordinance is made available to the public at least a week in advance of the meeting.
- ✚ Eliminate provisions relating to elections now governed by state law.
 - When this charter was written, a City election officer was required and City actions had to take place with every election. The State law has subsequently eliminated this provision and set standards statewide. This change would eliminate conflicting provisions from the City charter.
- ✚ Revise language, correct grammar, and reorganize some provisions to improve clarity.

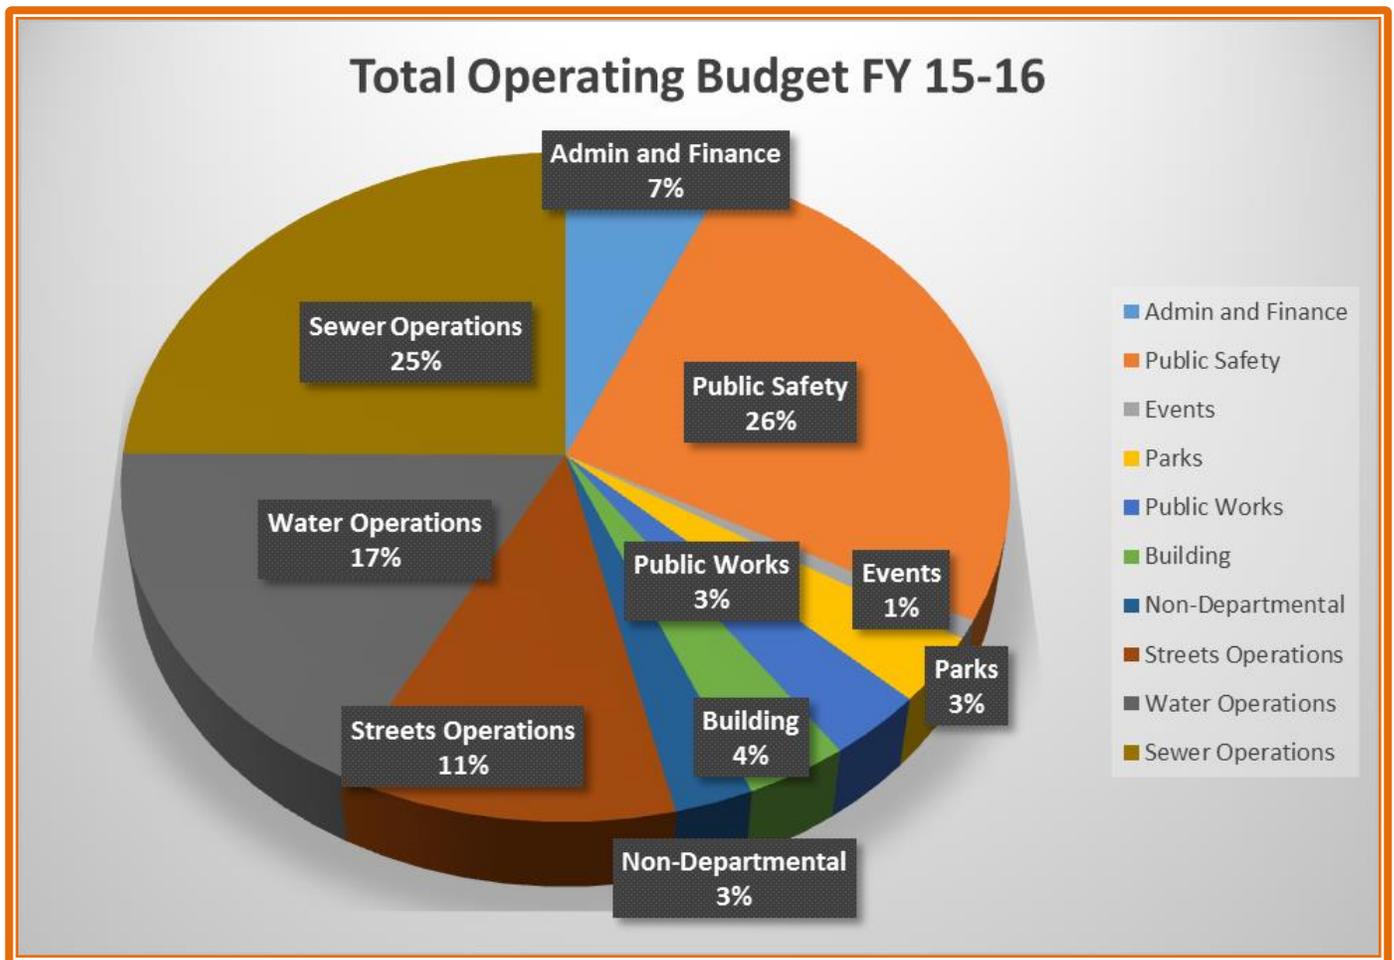

Detailed information on the specific changes is available at no cost to any interested resident. The City Council stated in their adoption resolution that the intent for the amendments is to have them all be "housekeeping" in character. The voters are encouraged to inform themselves on the charter amendment proposals and to vote in the May election.

BUDGET COMMITTEE HEARING

Your budget committee is comprised of the City Council and five residents of Wood Village. The group meets annually to evaluate the proposed budget for the year ahead, establish tax rates, and discuss the financial condition of the City. The Budget Committee met in April, and has recommended to the City Council a budget for fiscal year 2015-16.

The Budget Committee focus was on two major things, the operating budget for the year ahead, and the capital investments that may be made to improve services. The total Operating Budget proposed for Wood Village is a total of \$3,271,596, a 1.62% increase from the current adopted budget. The operating revenues for the year ahead are predicted to increase about 3.4%, including adjustments to the water, sewer and streets fees of a predicted 2%. The pie chart below identifies by percentage where the operating costs of the City are proposed for the year ahead.

Along with the operations of the City, the Budget Committee deals with the total City budget, including capital outlay. The key items identified for capital for the year ahead include:

- Construction of a sanitary sewer line in Halsey to expand capacity and eliminate groundwater seeping into the sewer system.
- Reconstruction and renovation of the entry features to Wood Village.
- Upgrading water service and pressures to the residents of the TreeHill condominium development.

- Parks trail project, if grant funding is made available, will be undertaken
- A gravel pathway from the City Hall property to the end of Bridge Street in Fairview will be constructed.

The total City budget will contain reserves, contingencies and plans for future replacement of equipment and critical operating systems. These fund accumulations add to the total budget, but will not be planned for expenditure in the year ahead. That total budget, including all capital, reserves, contingencies, and the allocating for an ending fund balance, is \$8,385,580.

The hearing on the Budget will be conducted at the City Council meeting of June 9, 2015, at 6:00 P.M.

PUBLIC WORKS WEEK: MAY 17TH-23RD, 2015

The American Public Works Association has sponsored National Public Works Week since 1960. This is a celebration of the 28,000 members in the US and Canada. The purpose of this week is to energize and educate the public on the importance of the contribution of Public Works to their daily lives: planning, building, managing and operating the heart of our local communities and building the quality of life.

National Public Works Week (NPWW) is a celebration of the tens of thousands of men and women in North America who provide and maintain the infrastructure and services collectively known as Public Works.

"This year's theme is "Community Begins Here". There would be no community without the quality of life Public Works provides. There would be no community to police and protect, no public to lead or represent. Public Works allows the world as we know it to be. This year's theme "Community Begins Here" speaks to the essential nature of Public Works services in support of everyday quality of life."

Typically the work of the Public Works employees remains unseen; underground line repair and maintenance, operations of wells and sewer facilities, park clean up and planting, etc. Public Works encompasses a vast number of duties and responsibilities, many that are not viewed by the general public. The Public Works employee is out working in inclement weather repairing waterline leaks, they are woken up at all hours at home to come in and troubleshoot water well issues, they have to work in manholes or on lines that contain raw sewage, etc. They provide our residents with well-maintained infrastructure and services; clean, safe water; a beautiful park to enjoy.

Troutdale staff has invited Public Works employees from Gresham, Fairview and Wood Village to hold a BBQ luncheon to celebrate Public Works Week in recognition for all they do for their communities.

**Next time you see one of our Public Works employees
let them know how much you appreciate what they do!**

BIGGER THAN EVER!

Save the Date! The 16th Annual City Nite out is scheduled for Friday, July 17th from 5:30-9pm. This annual event which features free food, music, children's activities, and police demonstrations will once again be held at the Wood Village Baptist Church on Arata. The event will kick off with an emergency vehicle parade, and the landing of at least one helicopter. Look for more information on the City's webpage, or in the July newsletter. See you on July 17th!

park facilities for your own functions free of charge in most cases. Check out our webpage or stop by City Hall for more information. Hooray for Summer!

THE GRAFFITI FREE ZONE

The City has been making great progress on preventing and removing graffiti. From City crew members promptly removing graffiti in the right of way, to residents and business owners cleaning up graffiti on their property, Wood Village is sending a powerful signal that graffiti is not welcome here. We will also be posting signs around the community stating that we prosecute graffiti vandals, and that kind of behavior will not be tolerated in the City. If you are a victim of graffiti vandalism, the City can help. We have no cost kits that you can use to remove graffiti from your property. You can learn more about these kits on our website, or stop by City Hall. Remember, you can also report graffiti using our online reporting tool. Let's be a graffiti free City!

SUMMER CONCERTS IN THE PARK

Free concerts will be back for the third summer in a row at the Donald L. Robertson Park. The City has once again partnered with the Fraternal Order of the Eagles to host the concert series. While we do not yet have the dates or times outlined yet, all bands will be family friendly and lots of fun! Keep an eye on the City's website as summer nears to see which bands will be playing. Remember, you can reserve the gazebo and other

COUNCIL APPROVES FIRE CONTRACT

Fire Service is provided in Wood Village by Gresham Fire and Rescue through an intergovernmental agreement where Wood Village contracts for service. The existing contract, entered into in 2005, expires June 30, 2015. The City Council took action to authorize a new Intergovernmental Agreement (IGA) with Gresham to continue the service to 2025.

Beginning three years ago, Wood Village worked with Troutdale and Fairview to evaluate potential alternatives for the provision of fire service to our communities. We examined continuing with Gresham, initiating a fire district or joining a current district, developing a separate fire department for the three cities, and a range of more innovative solutions involving different methods to respond to our residents' emergency medical needs, and treating fire service in a different manner.

Portland State University, through the Center for Public Service helped complete this work, and the most important findings in the study included:

- 🔥 Three Cities residents (Fairview, Troutdale, Wood Village combined service area) are far more likely to receive emergency medical services (EMS) than to receive fire services.
 - 🔥 74% of all service calls are for EMS which accounts for 88% of total field service time
 - 🔥 Residents of the Three Cities call for EMS 5 times a day, but only 2 times a day for fires and other services. (Vehicle crashes, Citizen Assist)
 - 🔥 A structural fire in the Three Cities occurs about once every 25 days. The other daily fire related calls are false alarms, contained fires, or other issues that do not need a full fire response.
- 🔥 The current system meets high professional standards and is well-integrated between fire, ambulance and police responders. However, the Gresham system is configured and operated on the basis of “fire” responses, not medical needs.
- 🔥 Gresham FES is a low-cost provider among comparable medium-large systems.

The City of Gresham brought their City Manager, Assistant Manager, Financial analysts, and Chief Fire Personnel to the table along with the three chief administrative officers from our three cities. Following several exchanges of both written proposals and bargaining meetings, the parties arrived at a proposal for the ten years ahead. The proposal fairly discounts the cost of ownership of facilities, overhead and management costs and recognizes that there is value to the residents of Gresham to have the coverage contract for the three cities.

The end result is a very similar agreement with a slight cost reduction for next fiscal year and lower annual increases resulting in a net savings for a minimum of four years when compared to the annual 4% increase in the current contract. A breakdown of the City’s cost is outlined below:

- 🔥 Fiscal Year 2015-16: \$371,013 – a savings of \$28,268 compared to the current contract
- 🔥 Fiscal year 2016-17: \$415,131 - a savings of \$16,733 compared to the current contract

After 2016-17, the Three Cities’ annual rate will be adjusted based on the prior year’s actual cost. A key driver would be labor agreements, so further cost increases are certain. These labor cost increases would also be the case if some agency other than Gresham provided us Fire and Emergency Services. The IGA cost escalation formula includes an average of CPI and labor cost increases, with a bracket of 2.5% to 4.5% increase over the preceding year.

In the period since the conclusion of the active bargaining with Gresham, the City of Troutdale has received a proposal to provide a direct municipal fire department in conjunction with the other two cities. While this proposal has never been presented to the Wood Village City Council, or to our staff, we have been able to procure copies of the proposal and the background materials being utilized for this evaluation. Troutdale is interested in further pursuing the potential to enhance service levels through the use of a smaller department, operated by one or all of the three cities. The new agreement with Gresham does contain a two-year opt out provision which would allow Troutdale to potentially pursue a different service delivery method, and for Gresham to initiate good faith renegotiations of the agreement terms with the remaining Cities. For at least the next several years, the City will be getting a high quality service from Gresham at a very good rate.

WE'RE SPRUCING UP THE CITY

Just because the City did not receive any applications for the Brush Up Wood Village program does not mean that we still cannot beautify and improve our community. The City Council recently approved the Spruce Up Wood Village program which will cleanup and improve a public area of the City. This year's project will be Mayor's Corner, which is the small greenspace on the corner of 238th and Halsey across from City Hall. Over the years the original plantings and improvements have become in need of some TLC. Our plan is to go in and give the area a thorough cleaning with a pressure washer, and replant the area with native and flowering shrubs and plants. It will be topped off with new soaker hoses and a fresh layer of bark mulch. We are very excited about this opportunity to help spruce up a major gateway into the City, and to give residents another place to relax and enjoy. Please contact Greg Dirks at 503-489-6854 if you would like to volunteer for this project in early June.

EMERGENCY MANAGEMENT TAKES MANY FORMS

How does one public agency legally obtain services from another agency? Oregon law allows agencies to purchase services from each other by Intergovernmental Agreement or IGA. In 2000 the City Council authorized the City of Wood Village to join the Portland Metropolitan Area Transportation (PMAT) Co-operative Intergovernmental Agreement which permits the exchange of Public Works equipment and services between participating Cities, Counties and other government organizations in Northwest Oregon.

The PMAT-IGA has now been replaced by a new enhanced multiagency IGA called Managing Oregon Resources Efficiently (MORE). The MORE-IGA is available to all public agencies across the entire state and provides for a greater diversity of services. We all understand that it is not fiscally feasible to have staff be experts in all areas, and specialized equipment is very expensive. As described in the formal IGA, MORE allows public agencies to share resources including equipment, materials, and services for public works, municipal, transportation, engineering, construction, operations, maintenance, emergency management, and related activities.

So what are some other advantages to MORE?

- △ MORE has no expiration date. Once an agency signs they remain a MORE member until they resign.
- △ MORE has no financial caps. One can do as little or as much as an agency likes.
- △ MORE can be used in times of emergencies or urgency work. FEMA requires that agencies have agreements in place to aid each other for cost reimbursements.
- △ MORE provides an electronic bulletin board that can be used by agencies to post notices for everything from training announcements to equipment for sale or wanted.

The City Council authorized the City to become a member of the MORE- IGA. This agreement will enable the City to obtain services and resources, particularly in the event of an emergency. This is just one of the ways in which the City is preparing for potential disasters and emergencies. You can visit the City's webpage and click on the "Emergency" link to find out what you can do to prepare for an emergency. Let's be prepared!

CONGRATULATIONS GRADUATES!

Graduation is just around the corner for students throughout the community, but it was graduation for several young people on Wednesday, April 29th as they graduated from the second annual Youth Police Academy. This program which is based off the popular Citizen's Police Academy introduced students to the variety of areas within the Multnomah County Sheriff's Office. Attendees were able to visit the training center and take part in some training exercises, ride along on the river boat patrol, learn about human trafficking, online safety, and more! The graduating class was just under 20 students, and they all had a great time. Some students are considering a future career in law enforcement, while others made great connections with the deputies. We would like to thank Sheriff Staton, Chief Deputy Gates, Deputy Cortada, and the rest of the Sheriff's Office for putting this great program together. Sign up for the youth academy will be in the winter of next year, but the sign up for the Citizen's Academy will begin next month. Check out the City's webpage for more information.

UPDATE ON MARIJUANA ACTIONS

The Wood Village City Council took action to adopt legislation permitting medical marijuana and recreational marijuana sale locations on Tuesday, April 28, 2015. The action will have an immediate effective date.

Few actions in our community and around the state have garnered as strong of opinions as marijuana and the efforts to site marijuana facilities. In Wood Village residents and regional interests attended the hearing on proposed legislation at the Planning Commission and before the City Council. As adopted, marijuana sales facilities for medical and recreational marijuana would be permitted as a conditional use in the Neighborhood Commercial Zone. This is an area generally on either side of Halsey, along with a small area at the intersection of Glisan and 242nd.

The City Council moratorium on marijuana dispensaries and sales expired May 1, 2015. The state law provides that if Wood Village does not act, and our prohibition is not upheld in a court, outlets could be located in any commercial, industrial, or manufacturing zone (or agricultural zone if we had any). The state law says that dispensaries for medical marijuana can be no closer than 1,000 feet from a school, or from each other. If the state law was the standard for placement in Wood Village, there would have been a total of eight potential locations. The proposal from the Planning Commission permits

marijuana outlets in the Neighborhood Commercial zone and added to the statute a prohibition for outlets within 1,000 feet of a park. We have established the location of dispensaries or recreational marijuana sales as a conditional use requiring a public hearing, and narrowed the potential locations to three sites.

While the City Council had some opinions on what to do about this issue, the looming state law drove much of the conversation. We have strong advocates that do not wish to have any outlets of any sort permitted in Wood Village. These members of the Council feel very strongly that marijuana remains an illegal drug, and the City should not take action to enable sales of a prohibited drug. Others on the Council feel strongly that our residents voted to legalize marijuana (61% in favor), and that we should act to get the land use matters completed to allow this to proceed. Still other council members generally oppose the drug, but feel obligated to act to minimize the potential impacts if a prohibition is not able to be sustained. With these conflicts the final vote on the law was three in favor and two opposed.

The issues of siting for other marijuana related facilities remain undecided. Growing facilities, processing, and warehousing are all described in the law. The Wood Village City Council has not addressed any of these potential land uses, and they will remain prohibited until the State Legislature completes this legislative session and determines what changes may be made to the law.
